Summary

Full Stack Web Developer with a background in management and employee development. I have experience working as a full stack developer with a primary focus on the front-end tasks, unit testing, and SCRUM duties. Earned a certificate in Full Stack Web Development through Georgia Tech, and earned a MBA from Saint Leo University in 2020. I excel at MERN, SQL & NoSQL, and Javascript projects. I'm a proactive, resourceful problem-solver looking to continue to evolve as a developer.

Technical Skills

- Languages: HTML, CSS/SASS, JavaScript, Typescript, Java, C#
- Frameworks: React, Angular, Express, Node.js, MERN, MEAN, .NET
- Databases: SQL and NoSQL (MongoDB)
- Tools: Git, Heroku, Netlify, Bootstrap, MySQL Workbench, Mongo Atlas, Agile Frameworks (SCRUM)

Projects

Angular E-commerce App

- Standard "Ecommerce" application using Angular & Angular Material
- Technology used: Angular, Typescript, FakeStoreApi, Stripe
- GitHub: <https://github.com/ajdavis2424/angular-ecommerce-store>
- Project Deployment: (May need to click "back to our site")
<https://6491ad26308e2000c62deaf4--sparkling-platypus-4a03e1.netlify.app/>

Random-Ideas App

- Full stack app that logs and tracks your ideas.
- Technology used: JavaScript, Mongo DB, Custom Webpack
- GitHub: <https://github.com/ajdavis2424/random-ideas-app-fullstack>
- Project Deployment: <https://random-ideas-app-uvrw.onrender.com>

Tracalorie App

- App that tracks calories, workouts and meals.
- Technology used: HTML and CSS, JavaScript, Custom Webpack
- GitHub: <https://github.com/ajdavis2424/tracalorie-webpack/tree/main>
- Project Deployment: <https://storied-dodol-bac2c7.netlify.app>

Weather Dashboard

- Dashboard with a search bar that allows the user to input a city, and pull its weather

- Technology used: HTML and CSS, JavaScript, OpenWeatherMap API
- GitHub : <https://github.com/ajdavis2424/Weather-App>
- Project Deployment: <https://ajdavis2424.github.io/Weather-App/>

Feedback UI App

- This App allows users to add, update and delete feedback on a hypothetical business. It uses a mock REST API with json-server.
- Technology used: React.js, express.js
- GitHub : https://github.com/ajdavis2424/feedback_app
- Project Deployment: <https://hungry-newton-0a2933.netlify.app/>

GoodMorning App

- This App allows users to receive news stories from their favorite sources, and save them in one location.
- Technology used: HTML and CSS, JavaScript
- Front-end styling
- GitHub : <https://github.com/strawhat19/GoodMorning>
- Project Deployment: <https://strawhat19.github.io/GoodMorning/>

Experience

NACM, Tampa, FL - *Front-end Developer*

Feb 2022 - June 2023

- Maintaining existing components and building out new features for our customers nationwide.
- Initiated website redesign and internal restructure of our code.
- Develop, maintain, test, analyze performance and troubleshoot applications.
- Produce deliverables with clean, well-documented and easily maintainable code that adheres to defined coding standards and best practice
- I took on the added responsibilities of SCRUM Master after 8 months. My primary focus during a sprint is to make sure all developers have reasonable and understandable acceptance criteria, and any tools necessary to be successful.
- Wrote unit and UI tests to help identify defects in new code pushed out, and legacy code.
- Due to the size of team, I also have completed several back-end tasks using C#.
- Currently using Angular as a framework, and Typescript/Javascript as our language.

Orangetheory Fitness, Tampa, FL - *Coach and Trainer*

Sep 2020 - Feb 2022

- Leading and motivating members during their workouts by communicating effectively and efficiently.
- Helping members set and achieve fitness goals by creating pockets of one on one time to create a plan..
- Highest class utilization percentage in Tampa Bay Region.

- Ensure members used correct technique, and offered corrections if they're unable to execute movements.

AmeriCare, Tampa, FL - *Emergency Medical Responder*

Feb 2020 - Oct 2020

- Responded to emergency and non-emergency calls and assisted EMT's with efficient and immediate care to the critically ill and injured.
- Transported patients to an appropriate treatment or medical facility.

Saint Leo University, Tampa, FL - *Graduate Enrollment Counselor*

Aug 2013 - Jan 2020

- Built relationships with students and answered questions regarding degree requirements, enrollment, and admissions.
- Achieved initial contact with prospective students, and continued to counsel them through the entire enrollment process.
- Received Director's Choice Award for Outstanding Service 2015-2017
- Assisted new teammates with assimilating to the demands of being an admissions counselor, and helped develop new programs and tools to establish new counselor self-sufficiency.

Education

Georgia Tech, Atlanta - *Full-Stack Web Development Certificate*

2021

Saint Leo University, Dade City - *Master of Business Administration*

2020

University of Tampa, Tampa - *Bachelor of Arts: Government and World Affairs*

2008
